

# 数组

数组：相同元素的集合。

索引用整数表示：从1开始。

```
print("-----多维数组-----")
```

```
testArray2 = {}
```

```
for i=1,3,1 do
```

```
    testArray2[i]={}
```

```
    for j=1,2,1 do
```

```
        testArray2[i][j] = i*j
```

```
    end
```

```
end
```

```
for i=1,3 do
```

```
    for j=1,2 do
```

```
        print(testArray2[i][j])
```

```
    end
```

```
    print("-----")
```

```
end
```
